# Yingchen Tang

## Design Lead

I turn design direction into shared systems and shipped work.

Design Lead with experience at RightCapital, Amazon and IBM. I lead complex redesigns, establish reusable design foundations and align designers, product and engineering around a clear direction.

**Experience**

### RightCapital

May 2024 — May 2026

Beijing · US fintech

UI/UX Designer

Led the Advisor / Admin Portal redesign while partnering with Beijing engineering, Shelton product and the Marketing design team.

- **Design roadmap & delivery.** Led a launched redesign across **50+ pages** in RightIntel, RightFlows and Risk. Mapped scope by user role, navigation, designer and due date, enabling **3+ designers** to work in parallel.
- **Direction through hands-on design.** Established the Risk module's visual and interaction baseline and personally designed core Firm Admin journeys, giving the broader redesign a concrete reference.
- **Shared design foundations.** Co-led Design Tokens Season 2 across color, typography, spacing and radius. Aligned product and Marketing needs around a DTCG-aligned foundation for Design System V2; maintained the Figma source for **10+ production components**.
- **US reporting & design advocacy.** Traveled to the US to represent the design team and present project outcomes. Delivered separate work updates on behalf of the UI/UX and Marketing teams, explaining the design principles behind the work and advocating their adoption.
- **User testing & stakeholder discussion.** Conducted a qualitative usability pilot with **6 internal participants**. Brought findings on navigation, action visibility and interface clarity into design discussions and follow-up priorities.
- **Cross-functional quality.** Worked with engineering through implementation and design QA, including Client Portal themes, web / PDF consistency and Redtail / Wealthbox integrations.

### Amazon

Jul 2022 — Feb 2024

Design Lead

- **Design direction.** Led UX/UI, branding and design consulting initiatives, guiding the design team and aligning stakeholders on complex design decisions.
- **Scalable process.** Created a design system that improved consistency across product features and **reduced design iteration time by 28%**.
- **Quality standards.** Drove an AI-assisted accessibility audit, increasing visual assets meeting accessibility standards from **69% to 95%** by Q4 2022.

### Amazon

May 2017 — Jul 2022

Designer

- Supported **13 marketplaces** across North America, Europe, India and Japan, connecting UX/UI, visual design, 2D animation and communication.
- Served as a Prime subject-matter expert and XCM Prime brand ambassador. Led creative reviews that raised the design quality score from **2 to 3.5**, and trained internal teams and stakeholders on accessibility and brand consistency.
- Improved Amazon US middle-funnel creative through forms and interactive elements; reduced design rejection rate from **7.01% to 2.4%** over the reporting period.

### IBM

Dec 2016 — Mar 2017

Information Designer

- Developed creative communication and information design for proposals within the Sales Transaction Support organization.
- Provided art direction for proposal components, defining information architecture and a consistent visual approach.

## Education

### The Hong Kong Polytechnic University

Master of Arts (MA)

Sep 2015 — Sep 2016

### Jiangnan University

Bachelor's degree

Sep 2010 — Sep 2014

## Capabilities

| | |
|---|---|
| Design | Design direction · Design delivery planning · Cross-functional alignment · Design systems · Design critique · Visual design · User testing · Design QA |
| Tools & collaboration | Figma variables, libraries and variants · Adobe Photoshop, Illustrator and After Effects · Sketch · Jira · Notion · Confluence · Cross-timezone delivery |
| Languages | Chinese · English · TOEIC 870 / IELTS 6.5 |
| | Japanese · JLPT N2 exam planned for Dec 2026 |

## Credentials

### Google UX Design Professional Certificate

Google · Jan 2024

### Project Management Professional (PMP)

Project Management Institute

Credential period: Jul 2021 — Jul 2024
